FRONT

Please read before use!

INTRODUCTION

Thank you for choosing ANDROID® SMARTWATCH AD721. This user's manual offers instructions to you can make the best use of this Bluetooth companion.

The Company reserves the right to make changes to the technical specifications described in this manual, without advance notice.

Note:
Please read these notes carefully before using the ANDROID® SMARTWATCH to ensure the safe and correct use.

The pictures used in this manual are functional schematic diagrams and may differ from your SMARTWATCH display.

2

Safety and Performance

Do not use the ANDROID® SMARTWATCH while it is charging. Do not use ANDROID® SMARTWATCH outdoors during a lightning storm to avoid being struck by lightning or other injuries.

Do not place the battery on or near fires, stoves, or other high temperature locations. Do not store the battery in direct sunlight, or use or store the battery inside cars in hot weather. Doing so may cause the battery to generate heat, rupture, or grille. Using the battery in this manner may also result in a loss of performance and a shortened battery life. The use of the SMARTWATCH in this situation may lead to failure and cause a fire.

Keep charging adapter or other flammable materials away from the body in order to avoid fire, explosion, or other hazard.

Do not attempt to disassemble, repair or rebuild the SMARTWATCH. Do not use a non-original battery.

3

This SMARTWATCH may affect medical equipment such as pacemakers, hearing aids or other electronic devices. To avoid potential interference, it is recommended that you always maintain a distance of at least 6 inches between your ANDROID® SMARTWATCH and any electronic medical equipment.

Do not use your ANDROID® SMARTWATCH while driving. Stop the car before making or answering phone calls or use a separate hands-free device.

Keep ANDROID® SMARTWATCH and charger out of reach of children. Do not allow unsupervised children to use ANDROID® SMARTWATCH or charger.

Operating conditions: temperature 5 °C - 40 °C; humidity 35% - 85%.

Do not wipe the ANDROID® SMARTWATCH with alcohol, thinner, solvents or benzene solution. Avoid buildup of dirt that may prevent your ANDROID SMARTWATCH from making contact with the charger. Clean regularly.

4

WATCH INFORMATION

All ANDROID® watches are made with the finest premium grade materials. We have listed below how to best care for your watches to ensure the materials and workmanship are well maintained.

How to care for your ANDROID® SMARTWATCH:

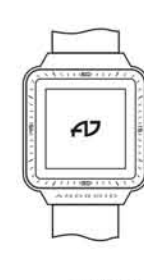

The ANDROID® SMARTWATCH is SPLASH resistant. That means it will withstand moisture on the surface, as with rain or splashes, immediately wipe dry with any moist cloth, with a soft cloth. DO NOT immerse your splash resistant watch in water.

DO NOT wear your splash resistant watch in the shower. DO NOT wear your splash resistant watch in a steam room or sauna.

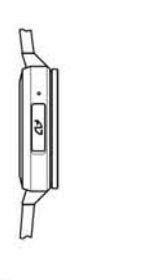

DO NOT swim while wearing your splash resistant watch. Moisture may damage your leather strap.

Approved: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

36

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

□ Reorient or relocate the receiving antenna.

□ Increase the separation between the equipment and receiver.

□ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

□ Consult the dealer or an experienced radio/TV technician for help.

37

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.
